PROFESSIONAL SUMMARY:

B.E. CSE (AI & ML) student with a strong interest in Data Analytics and visualization. Skilled in Excel, SQL, Power BI, and Python, with hands-on experience in data analysis and dashboard creation.

EDUCATION:

B.E. Computer Science and Engineering (Artificial Intelligent & Machine Learning) | *Jeppiaar Engineering College*

2024-2028

TECHNICAL SKILLS:

- **Analytical Tools:** Power BI, Microsoft Excel, Power Query
- **Programming Languages:** SQL, Python
- **Data Analysis:** Data Visualization, Data Modeling, Dashboard Designs
- **Other:** Pivot Tables, DAX, Data Cleaning

PROJECTS:

Sales Dashboard Analysis - [Excel | pivot tables | Slicers | Data visualization]

- Developed an interactive sales dashboard to analyze sales, profit, quantity, product category, regions and monthly performance.
- Used pivot tables, pivot charts and slicers to enable interactive business analysis.
- Created KPI metrics for total sales, total profit, total quantity to support quick decision making. Presented key insight through interactive visualization for easier decision making.

Blinkit Sales Dashboard - [Excel | Data Visualization]

- Developed a Dashboard to analyze blinkit sales and performance.
- Analyzed sales trends, product categories, outlet performance, customer-related metrics.
- Created interactive charts and KPI to present business insights clearly.

Swiggy Data Analytics Dashboard - [Excel | Pivot Table | Data Visualization]

- Analyzed Swiggy food-delivery data to identify trends in orders, revenue, ratings, restaurants, location and customer preferences.
- Developed an interactive Excel dashboard with KPI, charts, filters and slicers for exploring business performance.
- Presented data driven insights to support better understanding of sales trends and customer behaviour.

Data Analyst:

Internship (Remote)

Jan 2026 – Nov 2026

Chennai

- Worked on data analysis and virtualization tasks using Excel and Power BI
- Performed data cleaning, transformation, and analysis to generate meaningful insights.
- Created dashboard and reports for presenting analytical findings.

CERTIFICATIONS :

- **Excel for Data Analytics-IBM:** Advanced Excel skills in data modeling, automation, and dashboard creation. [\[View Certificate\]](#)
- **Data Visualization and Dashboards with Excel and Cognos-IBM:** Gained skills in data visualization, dashboard creation, and data analysis using Excel and IBM Cognos. [\[View Certificate\]](#)
- **Basics of Python-Infosys springboard :** Learned Python fundamentals, including variables, data types, functions, loops, and basic programming concepts. [\[View Certificate\]](#)
- **Data Analytics-Novitech R&D Private Limited:** Gained practical knowledge in data analysis, Python, Statistics, Excel, SQL, Power BI, Tableau and data visualization. [\[View Certificate\]](#)
- **Python for Data Science, AI & Development:** Learned Python programming fundamentals and its applications in data science, artificial intelligence, data analysis, and development. [\[View certificate\]](#)
